

## **Details about Elegance Elevator Models**

We are certified residential home elevator providers in India & are exclusive partners with ThyssenKrupp Access Solutions. We proudly introduce you to our latest hydraulic residential lift Elegance. The Elegance, as name embarks is a concoction of latest technology with flawless pattern, offering you the perfect combo of German Engineering & Italian Design. These residential lifts are symbolism of magnificence & dissolve like salt to water with every home décor. The elegance home lift is designed with such precision that it can easily fit into an existing space within your home. Even when installed in compact spaces this home lift guarantees you a spacious cabin size. Elegance home elevator doesn't require a pit or a machine room & it operates on just single-phase power supply, thereby enforcing itself as the market leader.

The Elegance Home Elevator combines the latest technology with functionality and design offering you a wide variety of finishes and configurations. It comes with the option of a modular metal shaft structure or can be installed into an existing or pre-built shaft. Despite its compact exterior dimensions it is very spacious inside. You can use the lift to get from one floor to another but it's also ideal for transporting shopping, laundry, furniture, etc. The Elegance is easy to fit into an existing space, such as a closet or in the hall beside the stairs. Moreover, a lift pit is not necessary.
